

Work Activities

Determine Dangerous Tree Assessment Training

Disturbance Level	Work Activities	Training Level
4	 <p>Trees adjacent to corridors in partial-cut cable logging operations Harvesting operations in damaged stands Blasting Helicopter logging (lift >2200kg) Medium/heavy helicopters; rotor wash</p>	Dangerous Tree Assessor
3	 <p>Tree falling Cable yarding Ground skidding Mechanical harvesting and forwarding Helicopter logging (lift <2200kg)/rotor wash Heavy equipment mechanical site prep Heavy equipment maintenance/construction</p>	Dangerous Tree Assessor
2	 <p>Juvenile spacing or slashing Tree bucking Heavy vehicles on trails, road maintenance without heavy equipment Pruning large trees (e.g., climber for spiral pruning)</p>	Dangerous Tree Assessor
1	 <p>Tree planting Brushing Tree pruning (stems <20cm dbh) Light-duty machinery Heavy vehicle travel on constructed road (eg., FSR's) Fire control with hand tools & water hoses</p>	Qualified Person Training
Very Low	 <p>Forest surveys Stand reconnaissance Tree marking Road and cutblock engineering & layout Light vehicle travel (pickups, ATVs) Foot travel</p>	Awareness Training
